Profile

AI web developer and agentic AI engineer who builds complete products end to end: interface, database, authentication, payments, AI features and deployment. Co-Founder of Undercraft Studio, working with businesses in Qatar and the Gulf, and founder of the Velcarro online store. Ships production Next.js apps, AI agents and automations, multi-language and Arabic right-to-left e-commerce, and WordPress sites. Builds AI workers: AI that owns one job, runs every day on its own and waits for a person to approve anything risky (for example nightly review-reply drafts in AutoReview AI).

Experience

Co-Founder · Undercraft Studio

undercraftstudio.com · Websites, web apps & AI for businesses in Qatar and the Gulf

- Built e-commerce stores with admin panels, WhatsApp ordering, local payments and AI features (Zayvra, Inkora, Rayyan Fragrance).
- Built a bilingual English / Arabic tailoring store with bookings and order tracking (Dar Al Zahra).
- Built WordPress restaurant sites with Elementor and custom child themes, including online pickup ordering (Diwan Golconda, Momocha Hibachi).

Founder · Velcarro

velcarro.com · Own online store

- Built and run the full store: catalogue, cart, checkout, accounts and admin, in 12 languages including Arabic and Urdu (RTL).
- Next.js 16, React 19, Tailwind CSS v4, Clerk, Supabase; continuous deployment on Vercel with custom domain and email routing.
